Brash MD
“Reducing the costs”

The Brash MD represents a whole new concept in weighbridge design.

MD Series

The **MD** series was designed to reduce the cost of weighbridge ownership, whilst providing everything your business needs in a weighbridge

- **Designed to Last**
- **Low Profile**
- **Lightening Protection**
- **Simple Installation**
- **Built to Last**
- **Integral Side Rails**
- **Pit or Surface Mount**
- **Steel or Concrete Ramps**
- **No Crane required**

The **MD** weighbridge features superior load cell technology from the world largest manufacturer of load cells.

Inbuilt restraints keep bridge movement to a minimum whilst ensuring that there are very few moving parts to wear.

Sizes & Capacities

Platform Size	Capacity	Modules
6m x 3.3m	40,000 Kg	1
9m x 3.3m	40,000 Kg	1
12m x 3.3m	40,000 Kg	2
15m x 3.3m	50,000 Kg	2
16m x 3.3m	50,000 Kg	2
